Study the Golden Rule.

Man is his own worst enemy largely because he does not do by others as he would be done by himself. He may not realize it, but the more he studies the Golden Rule the more he will find the names relating to correct conduct.—Grit.

The Local Christmas Tree Industry.

The cutting and shipping of Christmas trees in northern Vermont has grown into a large industry. There are at the present time four companies shipping trees from the Barton station.

H. T. LaBar & Son of Delaware Water Gap, Pa., who have been here for seven years, employ 70 men in Orleans and Lamoille counties. They will ship 73 cars of trees this season to various places, going as far west as Omaha, Neb. They recently had a municipal telegram order from Pennsylvania for a 30-foot tree. The freight on this tree alone was \$41. One car which they shipped from Morrisville cost for freight and war tax \$688.82. Each year they pay the farmers from \$60,000 to \$125,000 for these trees. The past nine weeks they have paid in this village from \$60 to \$130 per week for boarding help.

Another large dealer is C. H. Chapman of Portland, Me., who employs 50 men in northern Vermont and will ship seven cars from this station. He has been shipping trees from here for the past ten years or more.

George Baumgartner of Pennsylvania employs 10 men and is loading 10 cars at this station and at Orleans. These trees go to Philadelphia where he personally sells them later.

B. F. Smith & Sons of Newark, N. J., who have been coming here for the past 15 years are loading 10 cars at this station, which average 525 bundles per car. They send trees to the principal cities of the United States and employ eight or nine men in this town.

Each concern does business in all parts of northern New England. All report a bad season on account of bad weather.
